

# CAPABILITY STATEMENT

## Core Competencies

- **Business Analysis** – Business/System Transformation with Business Process Re-Engineering, Requirements Elicitation, Analysis, Validation, Management and Communication. Alignment with the Sponsor’s Needs, Expectations with Dependency and Constraint consideration.
- **Requirements Engineering** - Development of functional and technical requirements to support product and system development.
- **Full Stack Agile Software Development** – Development of innovative software system in cloud-based environments. Our DevOps methodology supports continuous integration and automated testing enabling rapid deployments.
- **Software Verification and Validation (V&V)** – Development of manual and automated test artifacts, executing both static and dynamic software inspections, and testing throughout the Software Development Lifecycle (SDLC).

Past Performance	Differentiators
<p><b>Department of Veterans Affairs</b></p> <p>Veterans Benefits Management System.</p> <p>Subcontractor to Booz Allen Hamilton 2016-Present.</p> <p>Providing Business Requirements Leadership, Senior Software Development and Automated Testing capabilities to support a large DevCenter.</p>	<ul style="list-style-type: none"> <li>• Deep understanding of the VA Benefits lines of business</li> <li>• Years of experience working with VA personnel, both at VA Headquarters, regional offices, and satellite locations</li> <li>• Experience working in an Agile Centric DevCenter environment</li> </ul>
