

Requirements Analyst / Product Owner

We are looking for **Technical Requirements Analysts / Product Owners** to join the J-Mack team!

Location: **Charleston, SC** (Must live in the Charleston, SC area or be willing to relocate)

Must be a **U.S. Citizen**

Responsibilities include:

- Developing specific requirements to serve as the build-to specification for development.
- Serving as the development team representative during user acceptance testing for the purpose of clarifying the intended functional behavior of the software.
- Managing requirements using Web-based requirements management packages.
- Prioritizing which requirements to include in a specific software release by identifying relationships and dependencies between requirements and estimation of technical effort.
- Serving as the product owner and liaison between the technical team and the client for the purpose of establishing a common understanding of requirements and the as-built product.
- Contributing to the preparation for and delivery of software system demonstrations to the user community.

A qualified candidate has:

- 3+ years of requirements, business, application or systems analysis experience
- Strong analytical and interpersonal skills
- Great communication skills
- Ability to work in Charleston, SC area or be willing to relocate
- Ability to obtain a security clearance
- BA or BS degree or 8 years of experience with software or engineering in lieu of a Bachelor's degree

Why J-Mack?

- We offer competitive Salary and excellent Benefits, including:
 - Medical, Dental, Vision
 - 401(k) with 4% match and 100% vesting
 - 120 hours of PTO per year
- You'll work in a fun work environment where you will be valued, challenged, and appreciated!

Clearance: Applicants selected will be subject to a security investigation and will need to meet eligibility requirements for access to sensitive, personally identifiable information.
